

# PoE Wall Mount for Joan 6 Pro

An absolute must for enterprises with  
extra stringent security protocols.

# Mounting instructions

**1**

Remove the front cover of the PoE Wall Mount.

**2**

Drill holes into the wall and attach the PoE Wall Mount to the wall. The PoE Wall Mount can be mounted at a maximum height of 2 meters.

**3**

Plug the Ethernet cable into the PoE Wall Mount from the top. The cable can also slide in from the top right or left.

**4**

Put the front cover of the PoE Wall Mount back on.

**5**

Attach your Joan 6 Pro to the PoE Wall Mount.
